DETAILED ACTION

1. Claims 1-15 and 26-47 are presented for examination. Claims 1-15 and 36-37 have been amended. Claims 38-47 are newly added claims.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 15 and 44 are rejected under 35 U.S.C. 102(e) as being anticipated by Champagne et al. (US 7,143,169).
4. As per claims 15 and 44, Champagne teaches the invention as claimed including a method comprising:

adding location information [118, extra data, Fig. 1] to the message, before transmission of the message to storage, wherein the message is for transfer from the storage and the message comprising content [i.e., the message has original content and extra data inserted by second communication device], identifying a geographical

area within which the message is to be stored [col. 12, line 23 – col. 13, line 3; col. 16, lines 10-35]; and transmitting the message, with the location information [col. 13, lines 4-29; col. 13, line 64 – col. 14, line 20].

Allowable Subject Matter

5. Claims 1-14, 37 and 45-47 are allowed.
6. Claims 38-43 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. Applicant's arguments with respect to claims 1-14, 37-43 and 45-47 have been considered but are moot in view of the new ground(s) of rejection. The argument regarding to the newly added limitation in claim 15, see paragraph 4 of this action for details.
8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

9. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
